

One Seed Forward Garden Schools

OSF Garden Schools Climate Action Awards

One Seed Forward, in partnership with *Garden Organic* and *Wild Wales Seeds*, is delighted to announce the launch of our Climate Action Awards programme. Over the next few months we are looking for schools across the UK to take part in activities that will have a positive impact on the planet and local wildlife.

Our free starter pack contains a brochure with information about the programme, factsheets with practical activities, as well as seeds that you can sow to get your school into Action! Completion of at least 50% of the activities will qualify your school for a unique certificate of achievement and a place on our *Climate Action Wall of Fame*.

To obtain your free pack send an email with your school's name and address to oneseedforward@gmail.com, including *Climate Action Awards* in the title. There are limited supplies so be quick to secure your brochure and seeds.
